

45. A method of treating the inflammatory components of a hormonally-dependent cancer, comprising the oral administration of a composition of claim 40.

46. A method of treating both the inflammatory components and the growth components of a hormonally-dependent cancer, comprising the administration of the composition of claim 42.

47. A method of treating the inflammatory components of a hormonally-dependent cancer, comprising the oral administration of a composition of claim 43.

48. A method of treating both the inflammatory components and the growth components of a hormonally-dependent cancer, comprising the administration of composition of claim 44.

49. The composition of claim 40, wherein said cancers are selected from the group consisting of breast cancer, ovarian cancer, pancreatic cancer, testicular cancer, prostate cancer, pituitary cancer and melanoma.

Remarks

It is the applicant's intent to limit the prosecution of this continuation-in-part/divisional patent application to the treatment of hormonally-dependent cancers. All elements of these claims are supported in the specification.

To accentuate this limitation, the title of this application is also being amended, as recited above.

03/30/2004

Respectfully submitted,

**Dr. Melvin Blecher
